Good Government clubs:

OBJECTIONS OF THE CHAMBER OF COMMERCE COMMITTEE.

Any provision for a bi-partisan commission is inadmissible. It necessarily implies that political advantages are expected to be derived from a great
public work which legitimately has nothing to do
with politics. Each partisan element of the commission, from the nature of the case, will feel a party
obligation and will be subjected to party pressure
in every action which may be necessary for the
commission to take.

Politics must and shall have nothing to do with
rapid transit in the city of New-York. The Chamber of Commerce, the press of the city, the City
Club and the Good Government clubs are opposed
to this vicious and degrading method of dealing
with the great interests of the city of New-York.
The claim that a commission so constituted is nonrartisan is falsified by reason and experience. The
Chamber of Commerce bill in the form in which it was
introduced enjoys the confidence of the people and
has received the warmest support of the press voicing the wishes of the people. The issue involved in
the controversy over this bill in the Legislature is:
"Shall the people of New-York City have what." Can the Legislature afford to deny
them this." they want? Can the Legislature afford to deny them this?" BEEKMAN, for Rapid Transit Com-

they want? Can the Legislature afford to deny them this."

Senator Saxton replied to Senator McMahon, saying, in part: "Mr. Precident, I am very decidedly of the opinion that this Legislature ought to pass some Rapid Transit bill for the city of New-York. The only bill which can pass is this bill of the Chamber of Commerce. In some shape or another it ought to be passed. In my opinion a conference committee of the Senate and the Assembly will be held upon this bill, and any points of difference upon it of the two houses will then be adjusted. My individual opinion has been that the Rapid Transit Commissioners should be named in the bill, as the Chamber of Commerce has named them. In a matter of such vast importance the names of the Rapid Transit Commissioners should be known. I still hope that the bill will pass with the names of the Rapid Transit Commissioners should be known. I still hope that the bill will pass with the names of the Rapid Transit Commissioners in the bill.

The Senate then came to a vote upon the amendments to the bill proposed by Senator Lexow and adopted them by a vote of 19 to 9.

The bill was then passed by the following votes: Yeas—Ahearn, Bradley, Childs, Cogge, shall, Donaldson, Guy, Higgins, Kilburn, Lamy, Lexow, Mullin, McMahon, O'Connor, Sullivan, Dwens, Parker, Parsons, Person, Pound, Reynolds, Rice, Robertson, Smelzer, Stapleton, Wolff—25, Nays—Cantor, Collins, O'Donnell—3.

It will be observed that Senaters Guy, McMahon, Sullivan and Wolff, of New-York, voted for the bill with the Republican majority.

The Lexow bill abolishing the present Board of Police of New-York was next considered. There was little debate on the bill, the Democrats merely saying that they were opposed to it. It was then passed by a vote of 29 to 12, nineteen Republicans, and Senator Bradley, Independent Democrat, constituting the majority.

The Republicans of the Assembly have determined to recede from their opposition to Senator Saxton's Blanket Ballot bill with an individual paster. They will probably pass the bill to-morrow. This is the measure favored by James C. Carter and by others in New-York interested in ballot reform. With the passage of a blanket ballot bill the Republican Legislature will crown its pyramid of excellent legislative acts.

The Senate to-night concurred in the Assembly resolution for the final adjournment of the Leg-Islature on Friday.

WORK OF THE ASSEMBLY. IT PASSES THE CHAMBER OF COMMERCE RAPID

TRANSIT BILL-THE SUPPLY BILL PRUNED OF \$7,000 ONLY. Albany, April 25 (Special).-The Republicans in the

passed or advanced much important legislation. One of the first bills to be taken up was the Sheffield Chamber of Commerce Rapid Transit bill. A call of the House ordered by Mr. Ainsworth brought in all of the absent members, and then Mr. Sheffield moved to suspend the rules, in accordance with of its order. This motion was carried by practically tituencies demand the passage of the bill voted for once with the Republicans. Mr. Butts, who rep resents one of the annexed districts, opposed the measure in a speech, although his section of the having rapid transit. Mr. Dowling, of New-York,

Mr. Sheffield, Mr. Ainsworth and Mr. Fish sup ported it in brief speeches. The bill was then passed by a vote of 82 to 38, several Democrats voting for it against the protests of their associ-

Governor Flower's message declaring in advance that he would sign nothing but a blanket ballot bill with a blanket paster, which was read in the As-sembly Chamber late last night, was taken up the first thing this morning.

As soon as the reading of the journal had been dispensed with, Mr. Ainsworth claimed the attention of the Chair, and said he had a word or two to say regarding the communication on the Blanket Ballot bills which the Governor had sent to the House last night. That communication had practi-cally said that the Governor's message sent to the House at the opening of the session was only an

Mr. Alnaworth said: "There is a large element in the city of New-York who ought to receive the thanks of the Democrats for helping the Governor I am also a Republican, but the platform of the Republican party binds me to Ballot Reform, 1 propose to stand by it, and if the Governor has will do an extensive business relating to railroa

in order that he might know what to do with it this morning.

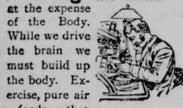

"You," said Mr. Sulzer, pointing at the Republicans, "don't want to go before the people next fall with a blanket ballot bil. You don't want to go before the people next fall with a blanket ballot. You tried to put the Governor in a hole on these bills, but I say he has now pilloried the Republican majority."

The chair enforced the five-minute speech rule, and Mr. Sulzer was obliged to take his seat before he had finished his speech. The message was taid on the table and will be printed.

There was a lively tilt between the Democrats and Republicans in the Assembly to-day over the reform bills introduced to relieve Richmond County of its present police force and Excise Hoard. The bills had once been passed, but they were amended in the Senate. They came over to the Assembly for concurrence in the Senate amendments. The Democrats wanted to send the Excise bill to the Excise Committee and the Police bill to the Committee on Internal Affairs, so that they would be killed. The Republicans, however, sent them to the Committee on Rules, which has power at any time to make a bill a special order.

There was also a lively struggle between the Democrats and the Republicans over the bill amending the charter of the city of Youkers, This bill also had previously passed the Assembly, but had been amended in the Senate. Mr. Harrigan, of Westchester County, made a vigorous fight to have it referred to the Citles Committee, so that its passage might be delayed. This course, under the rules, had to be pursued, but Hamilton Fish amend-

Just before the adjournment to-day the annual Appropriation bill, which had been recalled from the Governor merely to correct a slight error, was brought up for concurrence in amendments correcting the error. An effort was made on the part of Mr. Finneson, of Kings County, to reinsert the appropriation of \$28,000 for the payment of the Shore inspector. The effort was an unsuccessful one, and he bill was finally passed, with only four negative rotes. Mr. Suizer took occasion to state that it was probable that the Governor would not sign the till, becauss it contains a provision authorizing the kitorney-General to select the attorneys who shall pipear for the various State departments which lead legal counsel.

Immediately before this bill was handed down by he Speaker. Mr. Alneworth introduced a concurrent resolution providing for the final adjournment of the Legislature on Friday of this week. The esolution was greeted with loud applause on both ides of the chamber, and it was passed unantiously. Governor Flower to-day paid the bighest sort of

mously.

Governor Flower to-day paid the highest sort of tribute to the Republican Legislature in the manner in which he treated the Assembly Supply bill. Partisan as he is, he could prune it of only \$7.000. The vetoes last year, when there were a Democratic Assembly and Senate, amounted to over \$30.000.

Mr. Ainsworth called attention to the comparison between the two Legislatures. 'It is the same man, but a different Legislature,' he said.

TRYING TO FIX A PRICE. DR. MACDONALD SAYS THE KINGS COUNTY IN SANE ASYLUM PROPERTY WOULD

BRING ONLY \$500,000. Albany April 25.-Controller Roberts and Dr Carlos F. MacDonald, Goodwin Brown and Henry A. Reeves, the State Commissioners in Lunacy, held this afternoon with a committee from the Kings buildings of the Kings County Asylum for the Insane. A discussion was had as to the sum which Supervisors might reasonably expect to receive for Kings County. There are four new brick cot

tages at King's Park with accommodations for enimates, and twenty-eight old cottages with 500 acres of land.

Dr MacDonald suggested that the State could pay only a nominal figure for the buildings, which, it is said, cost about \$3,00,000. He would not venture to suggest how much of that money had been wasted in dishonest and extravagent ways, but the county's plant was not nearly so valuable as it was alleged to be. He thought \$50,000 might be paid. Messrs. Brown and Reeves doubted if the State would appropriate even this amount, but Controller Roberts thought the amount named reasonable, as Kings County had equities in that she had borne her share of the cost of the erection of the various State hospitals. The committee of Supervisors will report back the result of the conference, and the action taken by the beard will be transmitted to the Governor, who will refer the matter to the State Asylum Districting Board to investigate before an amount is fixed upon to be appropriated by the State.

MORE THAN A YEAR AGO. Albany, April 25.-The report of the State Board of Assessors was transmitted to the Legislature to-day. It says in part:

"The local assessors of the respective countles of the State returned the sum of \$4,302,388,319 as th total amount of property in the State of New-York in the year 1893. This yast sum was composed of \$3.761,679,384 real estate and \$540,708,255 personal property. One hundred and two million five hundred and eix thousand two hundred and sixty-one dollars of the personal estate thus returned was corporate property, not subject to faxation locally for State purposes. The total amount of personal property subject to taxation locally for State purposes was \$438,20,674, thus making the sum of \$4,199,882,068 the total amount of property in the State for that year subject to faxation locally for all purposes. A comparison of the assessment of 1892 with the assessment of 1893 which is a subject to taxation locally for all purposes of \$161,823,199. IT IS REPORTED THAT THE VANDERBILTS ARE LARGELY INTERESTED IN THE NEW VENTURE. A bill and a resolution on the subject of the expected arrival in the capital of Coxey and his followers were introduced in the Senate to-day by the Populist Senators from Kansas and Nebraska. Mr. Peffer's is to "provide work for unemployed persons in the District of Columbia." It was referred to the District Committee. Mr. Allen's resolution was an assertion of the right of clitzens of the United States to assemble in the city of Washington for any and all peaceable purposes, and to enter upon the Capitol grounds and into the Capitol. This resolution went over and will come up in the morning hour to-morrow.

A NEW OBSTACLE FOR COXEY. THE HEALTH OFFICER OF THE DISTRICT PRO POSES TO HAVE NO DISEASE BROUGHT IN.

Washington, April 25.-A new impediment to the Coxey demonstration in Washington on May I appeared to-day in the person of Dr. Hammett, the Health Officer of the District of Columbia. disease the entire force will be quarantined. A United Press reporter showed Dr. Hammett to-day the interview with Dr. Doty, Chief Inspector of the Bureau of Contagious Direnses in New-York, in

reporter, "that just before you handed me this in terview I had a talk with one of my executive clerks on this same matter. He asked me what I intended to do with reference to the Coxey army, and I said that I proposed to make a strict inspection of every man in it the minute they entered the District. My authority does not extend beyond the District boundaries. If it did I would nake the inspection earlier. I shall deal with the Coxey forces just as I dealt with the encampment of the Grand Army of the Republic in September, 1892, when I had twelve inspectors stationed in the camp on the White Lot during the short time the Grand Army was there. The great danger from the Coxeyites will come when they go into camp They will, of course, observe ordinary camp rules Those trenches are great disease breeders, and it ectors at the Grand Army encampment to watch at times was so strong that we feared that disease would result. I shall probably ask the District Commissioners to give me extra medical aid to deal with the Coxey army. If I should discover among its members any contagious disease I will im-mediately isolate the entire force. We have a smallpox hospital here, newly equipped, and we are prepared to deal with any pestilence that may arise. We do not propose to take any chances.

FRYE'S ARMY ALSO SEIZE A TRAIN. THEY BURN RAILROAD FENCES AND TIES AND COMMIT OTHER ACTS OF LAWLESSNESS.

Terre Haute, Ind., April 25.-That contingent of 'oxey's army under command of "General" Louis Frye forcibly took possession of an east-bound freight train leaving here at 3 o'clock this afternoon. The officers of the army claim to have paid the railroad company for transportation as far as Brathe loading of horses, wagons, cooking utensils and blankers the train putted of the "Industrials" in this city. They spent last night near here, using the railroad company's fences and ties for fuel. One train was side-tracked to prevent the Commonwealers seizing it. When trains were started this afternoon the 300 "soldiers" made a rush for a freight and captured it. The engineer was told that the "Industrials" had railroad men in their ranks, and that if he refused to start the train he would be put off and one of their own men would take the throttle. The trainmen were unable to prevent them rioing, as the "Industrials" were determined, and any resistance would have resulted in bloodshed.

Brazil being in the heart of the Indiana coal district, and as hundreds of miners are now out on a strike, there may be serious trouble, as the miners will, on account of being residents, claim the charity of the city in preference to the "Industrials." The members of the army say they will continue to burn the railroad company's fences and ties until their blankets and cooking outfit are brought back to them. The army was desperate last night, and a detail of police surrounded the camp. "General," Frye is not with the army, having gone on ahead yesterday. "Industrials" in this city. They spent last

THE GOVERNOR OF MONTANA CALLS FOR AID.

April 25 .- In addition to the request of the Judge of the United States Court, the United States District-Attorney and the United States Marshal of the District of Montana for Federal aid in arresting the Hogan contingent of the army of the unemployed for seizing a train at Butte, Mont., against the mandate of the United States Court, President Cleveland has received the following from the Governor of Montana, which was given to the press to-night:

ing from the Governor of Montana, which was given to the press to-night:

Helena, Mont., April 25.

To the President of the United States.
Information reaches me by wire that a band of Coxeylius fleeing the State with a stolen train were overtaken at Billings by deputy United States marshais, who were trying to serve a writ emanating from the United States Court. A fight ensued. One deputy marshal was wounded, and the leader of the Coxeylies wounded. Deputy marshals were overpowered and driven off with revolvers and other weapons. The mob then surrounded the deputies, and now hold them prisoners. Train of Coxeylies within a few hours' run of Fort Keogh. Impossible for State militia to overtake them. As Governor of Montana. I hereby request you to have Federal troops at Fort Keogh intercept, take into custody, arrest, and hold these Coxeylies, subject to the orders of the United States Court issuing writ referred to. If Coxeylies pass Fort Keogh before orders can emanate from you for their apprehension, I request that Federal troops be ordered to overtake them. Promptness required.

MRS. LEASE SAYS IT IS THE BEGINNING OF THE END.

Terre Haute, April 25 (Special),-Mrs. Lease and Mrs. Gouger held a joint debate here this afternoon and to-night, the former representing the People's and to-night, the former representing the People's party and the latter the Prohibitionist. Upon being asked to give her opinion of the Commonweal movement, Mrs. Lease said:

"I liken it to the John Brown raid. It is the beginning of the end, and I regard it as a portentous movement. I don't believe the people of the United States realize how near they are to the crists. It will come much in the manner of the firing upon Fort Sumter-like a flash of lightning from a clear sky."

St. Louis, April 25.—Joseph Meyer, who has ac quired the title of "general" since he lost his job recently, is organizing a detachment to go to Washington and join Coxey. He claims to have 30 names on his list. His aim is to march across the higher bridge at noon Monday and selze the first freight train soing East. The unemployed railroamen of this city are also organizing a detachment and the two forces may combine.

COXEY'S MEN GET EXCITED. A PROMISE THAT 1,000 RECRUITS WILL JOIN THEM ON SURDAY.

Frederick, Md., April 25.-Camp Lafayette saw ome wild scenes to-night. Two telegrams that were sent to the men by Browne threw the camp into commotion. One was from Henry Vincent, o Chicago, announcing that 1,000 striking iron moulders had secured accommodations from the railroads, and would be in Rockville to meet the Army of the 'ommonweal on Sunday next. The effect of the announcement was electrical. The crowd broke into wild cheer, hais were thrown into the air and

a wild cheer, hais were thrown into the air and the black-shadowed figures danced in the red glare of the campfires.

The other message was read by Browne himself, and stated that General Kelly's men in lowa had been fired on by the militia, and six of them killed. This was fire to powder, and the men flashed up in an instant with a yell. The demonstration was only momentary, but it was decided enough to show the temper of the crowd. Later in the evening a dispatch was received at the correspondents' meadquarters, announcing that a fight between the Butte City train-stealers and the sheriff's posse at Billings, Mont, had resulted in the death of a man on each side. Browne was questioned regarding his view of the trouble, and said:

Them fellows ain't under our charge, and, of course, they can't hold us legally responsible. I don't believe it's going to hurt the movement. The people in the West ain't been ground down under the heel of the money power till they have had all the fight took out of them. They will stand by the men in the movement, just as the Omana people stood by Kelly."

The committee allowed a number of special excursion rates, but spent most of the day preparing data to submit to the meeting of the trunk line presidents to-day.

Lackawanna and Western Rali-road. This cutting was followed by the Pennsylvania's Western roads, and to prevent a general demoralization the presidents must take prompt action. It is believed that the Lackawanna's officers will repudiate any action of subordinate freight officials taken in violation of the agreement to maintain rates, and it is hoped that to-day's conference will result in a tilscontinuance of the improper methods believed to have been put in operation.

HARMONY IN KELLY'S RANKS. THE "GENERAL" SAYS LABOR WILL BE "FIMAN-CIPATED" IN TEN YEARS.

Atlantic, Iowa, April 25.-The day spent at this place has been a notable one for the "industrial Army." Internal dissensions, which for a time threatened to break up the army, have been settled and "Colonels" Speed and Baker have again as-

sumed their old places.

It was decided that henceforth the army will travel as a whole and not be regarded as separate travel as a whole and not be regarded as separate.

All important matters hereafter will be travel as a minimum and matters hereafter will be considered by "General" Kelly and his staff officers. A meeting of the army and citizens of the town was held at the Opera House, where addresses were made by the reconciled officers Kelly predicted that inside of ten years the "Army of Peace" will have accomplished its object, which is the emanci-

PROTECTING NORTHERN PACIFIC TRAINS. Spokane, Wash., April 25. -About fifty extra deputy marshals were sworn in early this morning, and the officers say that 100 more may be sworn in during the day to protect the trains on the Northern Pacific. The railroad officials claim to have trust-worthy information that the "Industrial" armies from Portland, Seattle, Tacoma and Spokane, which are said to number at this time over two thousand men, have been making arrangements in secret, and it is their intention to capture a Northern Pacific train with cars enough to take the army East. When they get the train they will demand a clear right of way, and it is said that this will be granted out of consideration of the fearful loss of life which would result should an accident occur. The new deputy marshals will guard the depots and grounds of all the principal stations in the State.

The same policy is being pursued by the officials in Idaho.

An order has been issued by Judge Hanford, of the United States Court, directing Deputy Marshal Vinson to swear in a sufficient force of deputies to guard the trains of the Northern Pacific from seizure by the Commonwealers. Pacific. The railroad officials claim to have trust

TO MAKE THEIR ADVANCE BY WHALEBACK. Duluth, Minn., April 25.-William Hellman, a aleonkeeper, is organizing a Duluth branch of the Commonweal. He says that he will be able to muster 1,000 men. The purpose is to charter a whaleback and make the trip by lake. The "army" will leave Duluth May 10 or 15.

THE COMMONWEALERS IN COLORADO. Denver, April 25.-The Coxey "home reserve" gained another thousand members to-day. Greeley, Col., April 25.—The Commonwealers are still headed for Washington, having started this morning out of Evans in wagons furnished by the people of this region. The people of Morgan County have been asked to give the army a lift through that county. They still hope to capture a train.

NO TROUBLE EXPECTED HERE FROM COXEY'S "ARMY" OR ITS FRIENDS.

SUPERINTENDENT BYRNES OF THE POLICE AND GENERAL HOWARD OF THE REGULAR

ARMY ARE WIDE AWAKE.

The proximity of Coxey and his army to the National capital, the unlawful acts of some of the Western bands who, under the inspiration of the example set by the Ohio nucleus, are lighting their way eastward, and the fact that orders have been issued from the War Department in response to calls for United States troops, have combined to give the movement a more serious phase than that associated with the start from Massillon a few weeks ago. People are beginning to think of possibilities resulting from the agitation now going on among the idle men in every locality. New-Yorkers have been resting calmly in the sense of their own security and with confidence in the Metropolitan Police Department. But the reign of Communism is always dangerous. While violence is not apprehended in New-York, vigilance in perfecting a system of protection of life and property in case of any outbreak is permissible under such deplorable industrial conditions as those which now exist. The warmer season of the year is somehow conducive to the stimulation of disorder. The "cranks" and fanatics are busy, the leaders are aggressive, a period of idleness can be relied upon to furnish recruits, and the spirit of destruction and looting might reasonably be expected to result from a single rash utterance of a blatherskite. But while the sense of apprehension is not strong,

it will be gratifying to many to know that watchfulness and precautionary measures are being observed and perfected. To begin with, the Superintendent of Police, Mr. Byrnes, has never been tendent of Police, Mr. Byrnes, has here charged with falling asleep in moments of emergency. New-York City, too, besides its many regiments of National Guards, has a magnificent National barracks just off the Battery, on Governor's Island. Its commandant is General O. O. Howard, of whom the world has heard considerable as a soldier, and who has coolness, bravery and military wisdom. To a Tribune reporter General Howard said yesterday that while no special orders had been issued to him by the War Department, he had no doubt that the Government at Washington was watching the situation closely. He explained that the United States Army was the last power appealed to in case of violence. "The cities," said he, "take care of themselves through their police while these men are passing through or sojourning in them. If the police are helpless in an emergency then the call is made upon the State authorities, and when they fail the next call is by the State upon the Federal Government. Coxey's men are not, so far as known, armed, and in that condition they would be easily dealt with My military department extends westward to the Ohlo border. Speaking yesterday of the safeguards taken by the Government at Washington for the protection of the National Treasury, Conrad N. Jordan, Sub-Treasurer at New-York, said: "We have no apprehension of any trouble here. Indeed, the Sub-Treasury building here is a very strong structure. We have a large force of men; they are armed, and would use those arms promptly if any demonstration should be made. I do not think any attempt to get in here would be successful."

The wish seems to be unanimous in all business circles that Congress should adjourn, or in some manner remove the tariff discussion from the field of existing perplexities. Democrats are united with Republicans in this view, and are equally emphatic in their criticism of the weakness of their own party in dealing with the great question around the settlement of which so much misery is concentrating. The hopelessness of an early adjustment of the matter, on account of the conflicting viewa in Congress, does not, in the minds of many prominent Democrats, give much encouragment for an improvement of the situation.

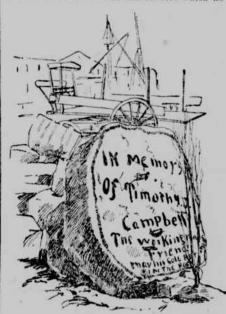

Dr. Alvah H. Doty, chief imspector of contagious diseases of the Board of Health of this city, announced yesterday that there was great danger of smallpox being spread all over the country by Corey's army. Dr. Doty was seen at his office, No. 209 Mulberry-st. Ever since the Coxey movement of Coxey's followers all over the country.

"A fearful menace to public health is imminent." said Dr. Doty. "The men in the movement are of those chasses which are more susceptible to contracting disease than others. I see that 2,000 Coxey recruits will leave Chicago on Saturday to go to Washington. Now Chicago is at present infected with smallpox. The disease is raging all over the city. The hospitals are not large enough to accommodate the victims. The sick are quartered everywhere. There is not th

supposed to represent in the National councils He was instrumental in having a bill passed which authorized the laying-out of Corlears Park, by the establishment of which the laboratory of W. H. Schleffelin & Co., the chemists; Mullen's sugar refinery, Hermana's lumber yard, O. F. Hawley's lumber yard and the Thernborn Spile Company must close their shops and move them elsewhere. To add to the bitterness of the pill administered by Campbell to his constituents, the men who were thrown out of work were not employed in the park improvement, but Italians were brought from Brooklyn to do the work. To show their appreciation of all this the workingmen dug a grave and set up a headstone to him who was the cause of their woes.
